

STRUCTRON® IMPACT CAPROCK SHOVEL

NOW AVAILABLE

Seymour Midwest introduces the new “Impact” caprock shovel, the most rugged and reliable caprock shovel on the market today. The result of precision engineering and best-in-class materials, this new shovel design will deliver outstanding performance for the professional user.

KEY FEATURES:

- **10 gauge stamped and hot formed head:** Strongest and thickest, rounded edge

- **PermaGrip steel collar:** For solid head-to-handle connection, warranted lock tight

- **Flat blade caprock style:** 18 degree lift

- **Solid fiberglass handle:** With polymer outer jacket, finite reinforced

- **ProGrip cushioned grip:** Made of durable textured vinyl with non-slip surface, weather resistant
