Maximum Duty Broom **Assembly Instructions – Wrap-Around Bracing**

Tools Needed for Assembly:

-7/16" wrench (two)

Parts Shipped with Unit:

-Head with bristles
-Aluminum handle with vinyl grip (not shown)
-Wrap-around braces (set of 2)
-Bolt bag

Assembly Instructions for Handle:

1. Slide slotted end of handle onto aluminum head.
2. Align holes and insert medium sized bolt. Do not tighten until all hardware is in place.

Assembly Instructions for Brush Replacement:

1. On one end of broom head, remove the two screws and end cap.
2. Holding broom securely, pull out each row of bristles.
NOTE: This may require some effort, as bristles are tight.
3. Make sure bristle channel(s) are clean.
4. Slide replacement bristle(s) into channel. Light tapping with a hammer may be required.
5. Replace end caps and screws.

Wrap-Around Brace Instructions:

1. Align holes of wrap-around end of braces with the handle and insert the longest bolt.
2. Align holes of flat end of braces with holes on head assembly, as shown, and insert the two shortest bolts.
3. Start all loc nuts on bolts. Use wrenches to tighten, being careful not to over-tighten. Over-tightening may result in crushing the handle, thereby compromising its strength.

FULL WARRANTY

All Seymour Midwest products carry a full warranty against manufacturer defects in quality and workmanship. Products which have been abused or worn out from normal use are excluded from this warranty. We reserve the right to replace or issue credit on an individual basis.
